-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 20 May 2004 has been entered.

### ***Status of the Claims***

2. This action is in response to papers filed 20 May 2004 in which claims 39 and 48 were amended, claim 41 was canceled and a Terminal Disclaimer was filed. The amendments have been thoroughly reviewed and entered.

The previous rejections in the Office Action dated 19 November 2003 under 35 U.S.C. 102 over Cerrina are withdrawn in view of the declaration submitted under 37 C.F.R. § 1.131. The previous rejections under 35 U.S.C. 103 are withdrawn in view of the amendments and Applicant's comments on pages 6-7 of the response. The previous rejections under obviousness-type double patenting are withdrawn in view of the Terminal Disclaimer.

New grounds for rejection are discussed.

Claims 39-48, 50-58 are under prosecution.

### ***Claim Objections***

3. Claim 49 is objected to because under 37 § 1.121, the text of canceled claims should not to be provided in the complete listing of the claims.

Art Unit: 1634

Appropriate correction is required.

***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 39-48 and 50-58 are rejected under 35 U.S.C. 102(e) as being anticipated by Quate et al (U.S. Patent No. 6,480,324, having a priority date of 29 May 1998).

Regarding Claims 39-48 and 50-58, disclose an apparatus comprising a light source, a computer-controlled micromirror array positioned to redirect light from the light source toward the substrate, and a reaction chamber, wherein the light source comprises a UV light wherein the lens comprises a lens system which changes magnification of light reflected by the micromirror wherein the lens comprises a lens system which changes magnification of light reflected by the micromirror (Column 4, lines 22-65, Column 5, lines 1-17, Column 7, lines 15-67 and Claim 1-13).

**Comments**

6. In view of Applicant's admission, Quate is prior art and contains claims that are not patentably distinct from the instant claims. It is noted that Applicant believes he is entitled to a declaration of interferences with regard to the Quate patent. However, the requirements for declaring an interference under 37 C.F.R. § 41.202(b) have not been met.

Art Unit: 1634

Applicant is invited to provide a showing under § 41.202(b) to place the application in condition for declaration of interference.

### **Conclusion**

7. No claim is allowed.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to BJ Forman whose telephone number is (571) 272-0741. The examiner can normally be reached on 6:00 TO 3:30.
